

# Known Issues in ProAppDesigner

Issue #	Description	Workaround
1043	Page onload: Edit check is failing while setting the value	
1156	Cards Control: Cascade delete is not working on Cards Control	
1267	Aras Portal: when we are uploading videos in file control and try to save it's not saving sometimes and showing blank error label	
1339	Only in Enhance View, if a Flyout is open and we click on Done Button, are we able to Modify/insert Data.	
1391	Button Flyout: insert a row in collection control, click on ok button. Again, Open flyout click on reset button. Inserted rows get vanished.	
14.14.2205	For classification & Item control in Table & Structure Table, unable to open flyout on tap of laptop touch pad	
14.14.2262	Tree table: If we select normal relationship and then Self Relationship, then the recursive relationship column is not resetting.	
14.14.2263	Tree table: In pdf/excel report Item, file, image control name is not appearing.	
1523	Enhanced View: If we have required property or validations on enhanced view then we are not able to save newly created actual item (from both classic and AppStudio view)	
1561	Cards Control: When we add card control (type) as a widget it is not visible in dashboard	
1572	Data of Signature and Image is getting erased temporarily from the table which is associated with the Tab control	
1576	Associate Type: After save, old item data is visible from item cache for associated section or group	

1582	In Graph Control when we edit any child details and try to save actual item. We are getting ItemsNotLocked Exception.	
1583	Card Control: Save Button is not working on card (Dashboard and Type on Wizard)	
1595	In Report ItemTypes & Dynamic columns are not available in column selection for Report Tree Table with Query Definitions.	
1617	In Enhanced view the signature is not getting saved on Actual item	
1634	Incorrect confirmation message displayed when deleting a panel or flyout	
1660	Signature control - After saving a signature, if the user clicks randomly on the canvas, the signature disappears	
1661	In the graphcontrol item filter is not working properly when we reopen the actual item.
