Send Us Your Comments

Aras Corporation welcomes your comments and suggestions on the quality and usefulness of this document. Your input is an important part of the information used for future revisions.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where and what level of detail?
- Are the examples correct? Do you need more examples?
- What features did you like most?

If you find any errors or have any other suggestions for improvement, indicate the document title, and the chapter, section, and page number (if available).

1 Enhancements, Fixed Issues, and Known Issues

1.1 Enhancements in Aras Package Import-Export Utilities 15.0.2

1.1.1 .NET 10 Compatibility

The Import/Export Tool has been updated and adapted to fully support **.NET 10**. This includes ensuring successful builds, runtime compatibility, and stable operation within the .NET 10 environment.

1.1.2 Improved Aras DevOps Support

Efficiency has been improved for both SaaS and MSI installations by reducing database load caused by rebuilding secure functions and applying structural changes.

1.1.3 Additional Stability and Quality Improvements

These changes improve the overall robustness and reliability of the Import/Export Tool.

2 Fixed Issues in Aras Package Import Export Utilities

Issue #	Description
IH-7266	Case sensitivity issues in AML package paths on Linux no longer cause failures. When running Console Upgrade on Linux, AML package paths now correctly handle case sensitivity (e.g., lowercase paths with uppercase folders), aligning behavior with Windows.

2.1 Known Issues in Aras Package Import Export Utilities

Issue #	Description	Workaround
