

Single Page

The template created in Aras ProAppDesigner can be single page or multi page. If the template has only one page, then it is called a single page application. In case of single page wizard, item keyed-name is used to show the page title.

The screenshot displays the Aras Innovator web interface. At the top, the 'aras INNOVATOR' logo is visible on the left, and a search bar is on the right. Below the header, a breadcrumb trail shows 'Suppliers' > '34564 BOSCH' > 'Mathews Long'. The main content area is titled 'Mathews Long' and contains two panels: 'Basic' and 'Details'. The 'Basic' panel includes fields for 'First Name' (Mathews), 'Last Name' (Long), 'Email Address' (m.lg@bosch.com), and 'Phone Number' (+1 198-323-9132). The 'Details' panel shows 'Created By' (Innovator Admin), 'Created On' (7/24/2024 5:34:40 AM), 'Modified By' (Innovator Admin), and 'Modified On' (7/24/2024 5:34:40 AM). Each field in the 'Details' panel has a small green checkmark icon to its right, indicating successful data entry or validation.
