

3D Scene

A 3D scene is the same for Monolithic, Dynamic and Streaming Viewers.

The 3D Scene includes the following:

1. The **Model Browser** section. As its contents and visibility are different for the Viewers, it is discussed in a corresponding section for each Viewer.
2. The **3DV** toolbar.
3. The **Model Orientation** indicator.
4. A given 3D CAD model.
