

# Confirming Aras 3DV Installation

The following steps outline the process of confirming the successful installation of given Aras 3D Visualization components:

1. Log into Aras Innovator as an administrator.
2. From the **Table of Contents**, expand **Administration** and select **Variables**.
3. Confirm that Variables for the given components are listed with necessary Values:
  - o 3D Visualization.3DViewers: 14.0.8
  - o 3D Visualization.CadConverter: 14.0.8
  - o 3D Visualization.DPN: 14.0.8
  - o 3D Visualization.RestoreCamera: true

The screenshot shows the 'Variables' interface in Aras Innovator. It features a search bar, a 'Clear' button, a 'Simple' view selector, a 'Default \*' dropdown, a 'Refine' button, a 'Display' button, a 'Share' button, and a 'New Variable' button. Below these controls is a table with the following data:

Name ↑	Value	Default Value
3D Visualization.3DViewers	14.0.8	
3D Visualization.CadConverter	14.0.8	
3D Visualization.DPN	14.0.8	
3D Visualization.RestoreCamera	true	true

If there is no Variable with the correct Value for a component, the installation of this component fails. Restore the Aras Innovator code tree, Conversion Server, and database with the backups done before the installation and contact Aras Support at [support@aras.com](mailto:support@aras.com) .
