

TDP Template Management

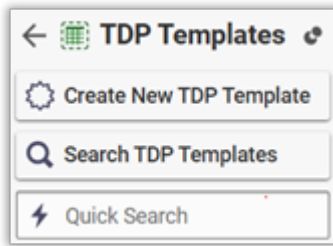

Create Template

The following steps outline the process of creating **TDP Template**:

1. From the Table of Contents select **TDP Templates**.
(Go to TOC → Administration → Pro App Designer → Templates → TDP Templates.)

2. The **TDP Templates Table of Contents** appears. Click **Create New TDP Template**.

3. Fill in the required properties, add the appropriate template file, and then click Save or Done to complete the process.
