

Table and Worksheet Benchmarking

This benchmarking was done on a QA machine with limited capacity. You will see better performance on a production server, since majority of the load time is taken by the server in fetching the data from the database.

Table Control

Item Count	Column Count	Pagination	Load Time
2000	8	Yes	Around 1 second
2000	8	No	Around 5 seconds
5000	8	Yes	Around 1 second
5000	8	No	Around 10 seconds

Worksheet Control

Item Count	Column Count	Load Time
2000	8	Around 4 second
5000	8	Around 8 seconds
