

# Modifying Default Saved Views Label

The following steps outline the process to change the name of the **Saved Views** label under the **View** tab of the 3D CAD model by root user:

1. From the Table of Contents, expand **Administration** and select **ItemTypes**.
2. In the **Quick Search**, search for **SavedViewSection** ItemType.

3. In the **SavedViewSection** ItemType, click **More** and select **Add to TOC**.

- Create New ItemType
- Properties
- Permissions >
- Delete >
- Add to TOC

The **SavedViewSection** ItemType should appear in the TOC section.

# Contents

- > Administration
- > Change Management
- > Design
- ✓ Documents
  - CAD Documents
  - Documents
- > Extended Classification
- > My Innovator
- > Portfolio
- > Sourcing

Saved View Sections

4. From the Table of Contents, click **Saved View Sections ItemType** and click **Search Saved View Section**. The **Saved View Section** grid view appears.

## Saved View Sections

Search Clear Simple | Default

	Section Order	Name	Default Section

5. Click **Search**.
6. Select **Saved Views** instance from the grid and click **Edit**.

### Saved View Sections

 Search  Clear Simple  | Default 

	Section Order	Name	Default Section
			
	128	Saved Views	<input checked="" type="checkbox"/>

7. Change the name of the **Saved View** from the **Name** field.

### 3D Saved Views

 Save  Done  Discard

 Saved View Section

**Name**  
3D Saved Views

**Section Order**  
128

**Default Section**

8. Click **Done** to save the changes.

To confirm the changes, go to the **View** tab of the CAD model.
